New NexAir News: NexAir Avionics is the Newest Cobham HeliSAS Dealer!

The HeliSAS Stability Augmentation System is designed to be engaged at all times - "SAS on" before takeoff and "SAS off" after landing - to provide unmatched stability and ease of handling. It dramatically reduces pilot workload while providing precise control during all modes of flight, regardless of wind conditions or shifts in weight. The attitude stabilization and force feel features enhance handling characteristics and mitigate inadvertent cyclic control inputs that could result in dangerous attitudes. The pilot may override the HeliSAS at any time with manual cyclic inputs. In cases where a pilot may lose visual reference due to limited visibility conditions, releasing the cyclic causes the helicopter to automatically return to a near-level attitude.

**NOW available at
NexAir Avionics!**

New NexAir Announcements: NexAir Avionics at AirVenture 2011

NexAir Avionics has made the annual AirVenture pilgrimage from Mansfield, MA(1B9) to Oshkosh, WI (KOSH) every year since it's launch in 2007. This year will be no different. You'll find us at Booth #318 (similar to previous locations).

Stop by, we'd love to answer your upgrade or avionics questions. "Like" us on Facebook - the first to post a correct comment to the question asked via FB on the opening day of AirVenture 2011 will win a NexAir Avionics hat and other prizes.
