This yellow-tagged Avidyne Entegra DFC90 was removed during an (R9) installation. It is almost new and even has the original manufacturer warranty!

Avidyne's DFC90 Attitude-Based Digital Autopilot enhances precision of flight and improves safety for your Entegra equipped Cirrus.

The DFC90 is Avidyne's digital autopilot system that is designed specifically for Entegra-equipped Cirrus aircraft.

The DFC90 adds the precision of an attitude-based flight control system with Avidyne's Innovative, safety-enhancing features such as speed-based Flight Envelope Protection.

The DFC90 has all the vertical and lateral modes you would expect in a turbine-class autopilot system, including Flight Director (FD), Altitude Hold (ALT), Airspeed Hold (IAS), Vertical Speed Hold (VS), Heading (HDG), and Navigation (NAV, APPR, LOC/GS, GPSS), and is designed to operate with the same user interface that Entegra-equipped Cirrus owners are already familiar with in the STEC55X system.
